

CERTIFIED ORGANIC* BODY SCRUB

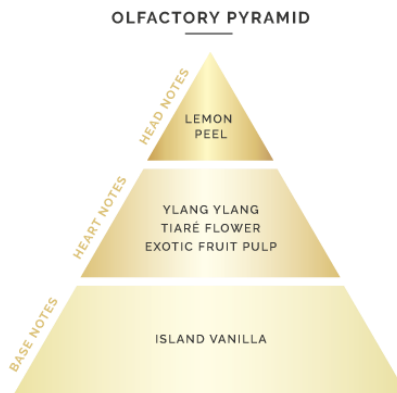

PRODUCT DESCRIPTION

OCEANE Body Scrub makes the skin silky soft, without damaging it and leaving it deliciously perfumed.

Marine-origin active ingredients, brown seaweed and Rock Samphire, invigorate, while siliceous microalgae and volcanic sand work together as natural exfoliators to eliminate dead cells, to smooth and sharpen skin tone.

Packaging :

Tube of 200 ml / Packaging made out of 50% recycled plastic

CHARACTERISTICS

- Natural physical exfoliation (siliceous micro-algae/ volcanic sand)
- Natural origin fragrance
- Energizing *Alaria esculenta* extract, an oceanic brown seaweed
- Revitalizing Rock Samphire extract, a coastal plant
- All skin types

DIRECTIONS FOR USE

- To be used on dry or wet skin, once or twice a week.
- Scrub with circular movements then rinse.

77,4 % of the total ingredients are from organic

* : Ingredients from organic farming ** : Made using organic ingredients

* COSMOS ORGANIC certified by ECOCERT Greenlife according to the COSMOS standard available at <http://COSMOS.ecocert.com>

ACTIVE INGREDIENTS

- Rock Samphire: coastal plant stimulating cellular respiration which increases directly usable energy (ATP) in cells. (measure of CO2 production after metabolism glucose 6 phosphate – *ex vivo* testing). The skin is reinvigorated, the complexion glows.
- *Alaria esculenta* : long and thin oceanic brown seaweed, with energizing properties (proven anti-collagenase and anti-elastase activity - *ex vivo* testing). Skin has renewed bounce and suppleness.
- Calcinated Diatomaceous Earth : physical exfoliator. 100% mineral powder from fossilized siliceous microalgae. Deep cleaning. Removes dead cells. Skin visibly smoother after use.
- Perlite : physical mineral-based exfoliator. Combines the natural hardness of volcanic rock with the softness of spherical particles for soft and effective exfoliation.
- Organic Glycerin: moisturizer, humectant.
- Organic Sunflower oil: nourishing, softening.
